

## Modeling the Incarnational Mindset

Phil. 2:3-13

Ben Joseph • January 5, 2025

-Every year, we celebrate Christmas, hearing the story of Christmas repeatedly without asking: What should be my response to Christmas?

-To live out an incarnational lifestyle modeled by Christ at that first Christmas—The eternal Son of God became human and that He did so without any manner or degree diminishing His divine nature. The Son of God added the role of the Son of Man.

1. An incarnational mindset focuses on others more than self: (Vs. 3-4)

2. An incarnational mindset sees all people worth serving:

3. An incarnational mindset is the byproduct of our relationship with Christ: (Vs. 12-13)

Questions to reflect:

1. Can others see Christ in me?
2. What eternal causes am I engaged in?
3. What would remain for eternity once my journey on this life is over?
4. What changes do I need to make this year?
5. How many meaningful relationships do I have with non-believers with the hope of seeing them come to faith in Christ?
